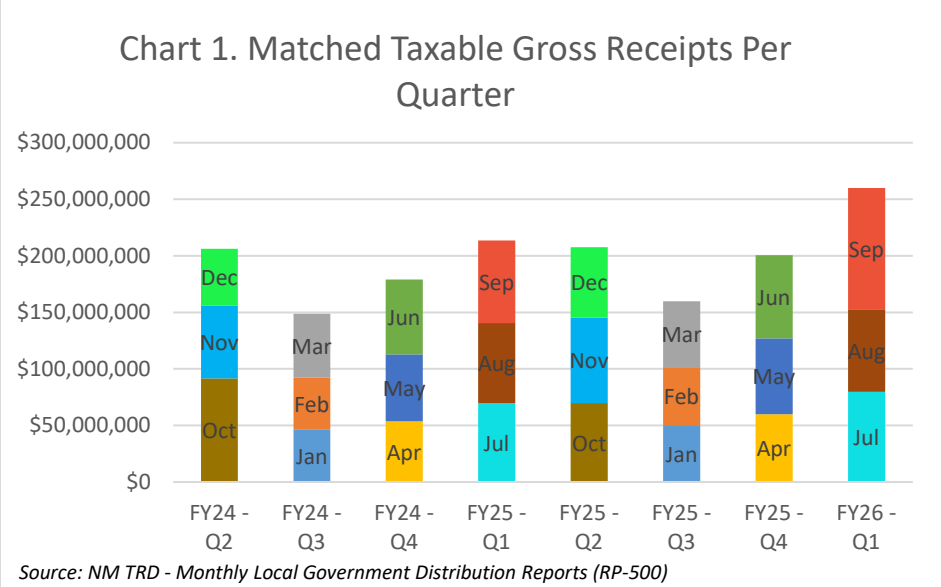
Quarterly Economic Summary

Rio Arriba County

Released: January 2026

Prepared by: Daye Kwon & Austin Anaya, Senior Economists



Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

In the first quarter of FY26, 25 out of 33 counties reported positive year-over-year (YOY) economic growth compared to Q1 FY25, with a statewide 5.8% increase in matched taxable gross receipts (MTGR). Growth was observed across most industry sectors, led by construction. In Q4 FY 25, employment and average wages in New Mexico increased YOY, while the number of establishments declined.

Rio Arriba County's MTGR increased by $59.6M, or 29.8%, from Q4 FY25 to Q1 FY26, as seen in Chart 1. The amount reported during Q1 FY26 ($260M) was $63.1M larger than the eight-quarter average ($196.9M). As seen in Chart 2, the largest industry as a percentage of MTGR was the mining, quarrying, and oil and gas extraction industry, which accounted for 23% of the total MTGR during Q1 FY26. Last quarter, the industry accounted for 11%.

Matched Taxable Gross Receipts (MTGR) provide the most accurate tax data for assessing underlying economic activity. The data collection process involves matching tax payments with reported receipts for each taxpayer by industry.

Quarterly Economic Summary

Rio Arriba County

Source: NM DWS - Quarterly Census of Employment and Wages and EDD Calculations

An **establishment**, as defined by the Quarterly Census of Employment and Wages (QCEW) and referenced in Chart 6, is an economic unit, such as a farm, factory, or store, located at a single physical address and engaged in one type of economic activity.

The **Quarterly Census of Employment and Wages (QCEW)**, used in Charts 5-6 and Table 2, produces comprehensive data on the number of establishments, monthly employment, and quarterly wages for workers covered by state unemployment insurance (UI) laws and federal workers covered by the Unemployment Compensation for Federal Employees (UCFE) program. These data are aggregated to many different levels, starting at the 6-digit NAICS industry level, to higher industry levels (NAICS industry groups, sectors, and supersectors), and to higher geographic levels (MSA, state, and national).

Data are based on information reported by New Mexico employers, covering 97% of nonfarm wage and salary workers. Data are published every quarter. Considered the gold standard for its reliability of industry data, the QCEW data are the most complete universe of monthly employment and quarterly wage information by detailed industry.

Table 2. FY25 - Q4 Employment Data and Establishments by Industry

Industry	Average Employment	YOY Change in Average Employment	Average Weekly Wage	YOY change in Average Weekly Wage	Number of Establishments	YOY Change in Establishments
