

# Quarterly Economic Summary

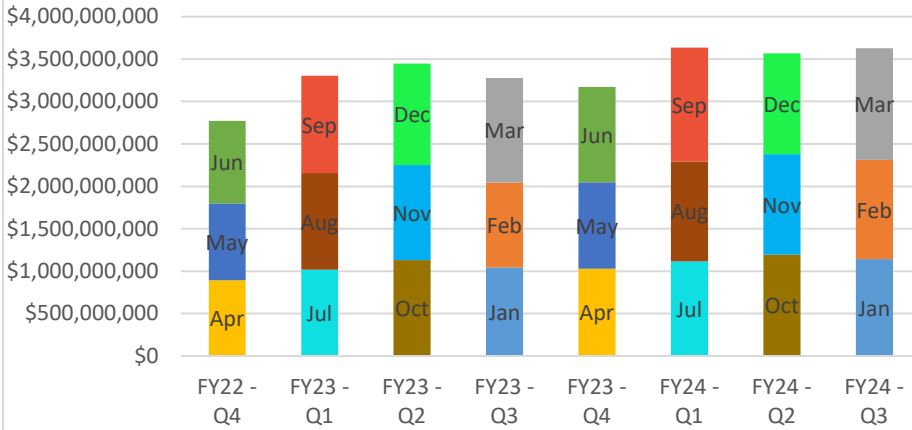

## Lea County

Released: June 2024

Prepared by: Joel Salas, Economist; Daye Kwon, Economist

Chart 1. Matched Taxable Gross Receipts Per Quarter

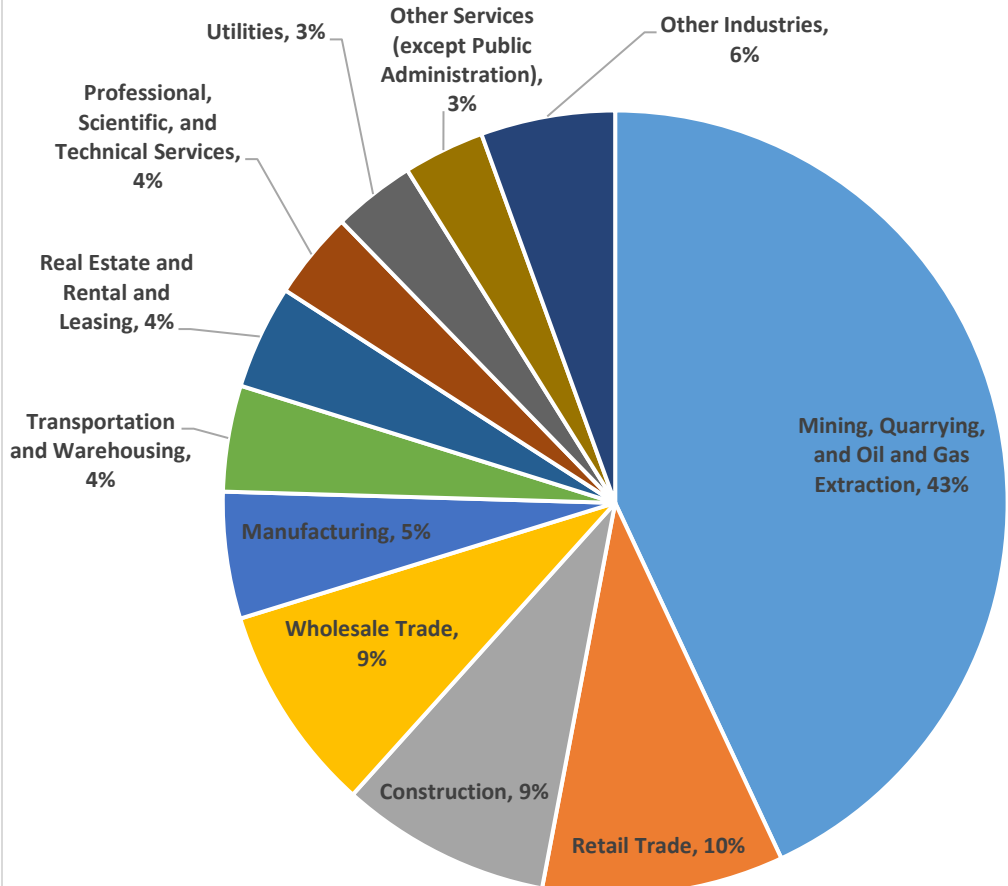

In the third quarter of FY24, 27 out of 33 counties reported positive year-over-year (YOY) economic growth, with a statewide 8.5% increase in matched taxable gross receipts (MTGR). Statewide growth was seen across most industry sectors, with construction and professional, scientific, and technical services leading. As inflation remains stubborn, employment, wages, and the number of establishments are up YOY in New Mexico.

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

Over the last eight quarters, Lea County's MTGR has averaged \$3.4B, which is \$277M less than the amount reported during Q3 FY24 (\$3.6B). From Q2 FY24 to Q3 FY24, MTGR increased by 1.7%, or \$60.7M. As seen in Chart 2, the mining, quarrying, and oil and gas extraction industry accounted for 43% of total MTGR in Q3 FY24, which is a slight increase from 40% in Q2 FY24. Table 1 on the next page shows that all but 5 industries reported a YOY

Chart 2. FY24 - Q3 Industry Size by Matched Taxable Gross Receipts

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

**Matched Taxable Gross Receipts (MTGR)** are the best tax data available to show underlying economic activity. The data collection process matches a tax payment with reported receipts for each taxpayer by industry.

increase. The largest increase came from the construction industry, which posted a YOY increase of \$101.3M. The largest decline came from the manufacturing industry, with a YOY decrease of \$30.2M.

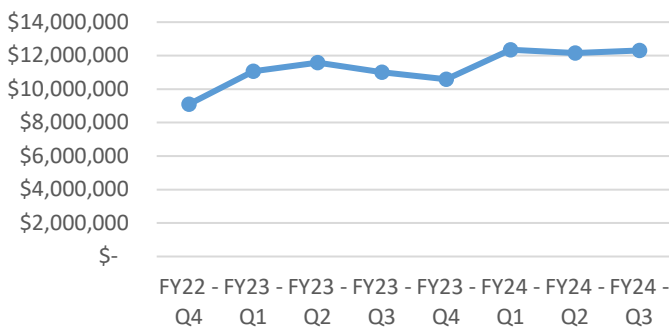

Quarterly gross receipts tax (GRT) collections have shown an upward trend, as seen in Chart 4. The amount totaled \$12.3M during Q3 FY24, \$154K higher than the amount during Q2 FY24 and \$1M higher than the eight-quarter average. As seen in Chart 5, Q2 FY24 average employment grew by 4.7% YOY, and average weekly wages increased by 4.3% YOY.

Chart 6. Establishment Year Over Year % Change

An **establishment**, as used in the QCEW and subsequently Chart 6 and Table 2, is an economic unit, such as a farm, factory, or store, which produces goods or provides services at a single physical worksite and is engaged, predominantly, in one type of economic activity.

The **Quarterly Census of Employment and Wages**, or the **QCEW**, used in Charts 5-6 and Table 2, produces comprehensive data on the number of establishments, monthly employment, and quarterly wages for workers covered by state unemployment insurance (UI) laws and federal workers covered by the Unemployment Compensation for Federal Employees (UCFE) program. These data are aggregated to many different levels, starting at the 6-digit NAICS industry level, to higher industry levels (NAICS industry groups, sectors, and supersectors), and to higher geographic levels (MSA, state, and national).

Data are based on information reported by New Mexico employers, covering 97% of nonfarm wage and salary workers. Data are published every quarter. Considered the gold standard for its reliability of industry data, the QCEW data are the most complete universe of monthly employment and quarterly wage information by detailed industry.

Table 2. FY24 - Q2 Employment Data and Establishments by Industry

Industry	Average Employment	YOY Change in Average Employment	Average Weekly Wage	YOY change in Average Weekly Wage	Number of Establishments	YOY Change in Establishments
Accommodation and Food Services	3,207	0.8%	\$ 483	8.1%	169	-3.4%
