

Quarterly Economic Summary

Los Alamos County

Released: September 2024

Prepared by: Joel Salas, Economist; Daye Kwon, Economist

Chart 1. Matched Taxable Gross Receipts Per Quarter

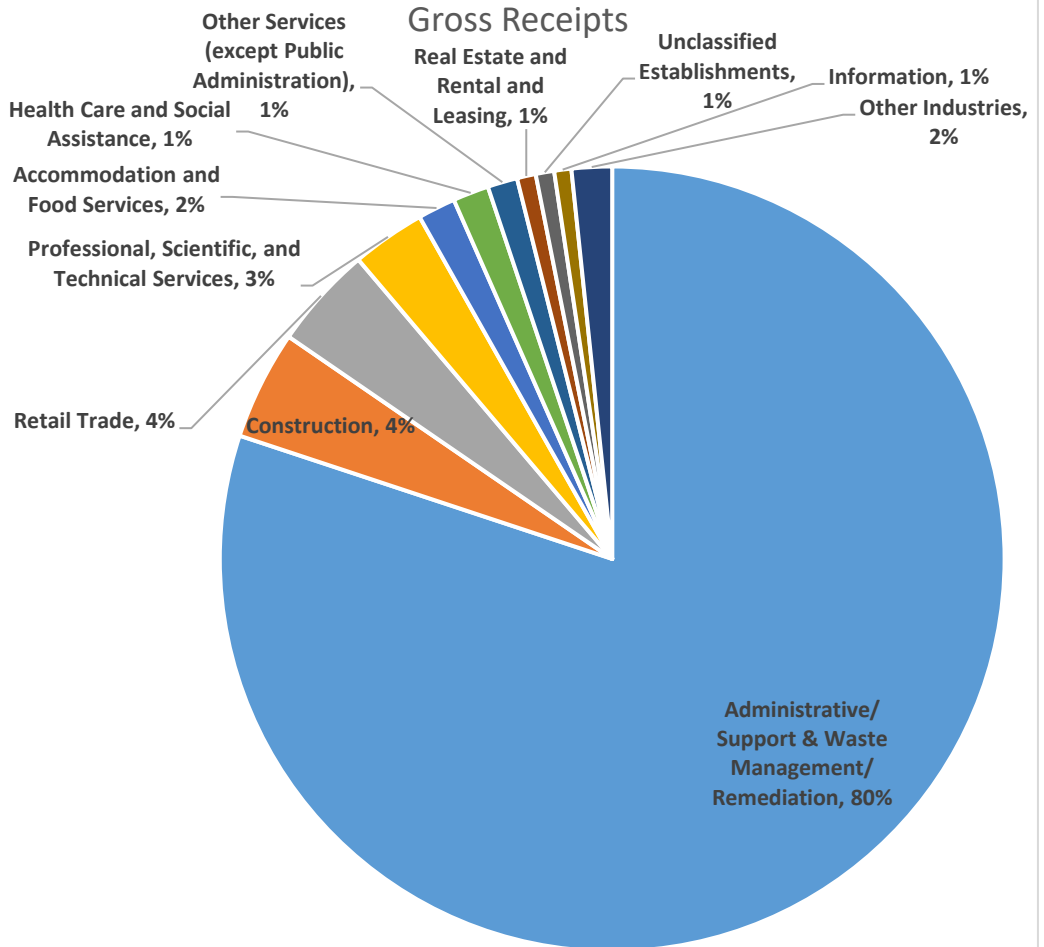

In the fourth quarter of FY24, 23 out of 33 counties reported positive year-over-year (YOY) economic growth, with a statewide 3.2% increase in matched taxable gross receipts (MTGR). Statewide growth was seen across most industry sectors, with professional, scientific, and technical services and other services leading. Employment, wages, and the number of establishments are up YOY in New Mexico.

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

Los Alamos County's MTGR decreased by \$115M, or 14.5%, from Q3 FY24 to Q4 FY24, as seen in Chart 1. The amount reported during Q4 FY24 (\$681M) was \$29M lower than the eight-quarter average (\$710M). As seen in Chart 2, admin/ support & waste management/ remediation and construction were the top 2 industries, accounting for 84% of MTGR in Q4 FY24. Table 1 on the next page shows construction had the highest YOY growth in MTGR among the industries.

Chart 2. FY24 - Q4 Industry Size by Matched Taxable Gross Receipts

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

Matched Taxable Gross Receipts (MTGR) are the best tax data available to show underlying economic activity. The data collection process matches a tax payment with reported receipts for each taxpayer by industry.

Chart 6. Establishment Year Over Year % Change

Source: NMDWS - Quarterly Census of Employment and Wages program and EDD Calculations

An **establishment**, as used in the QCEW and subsequently Chart 6 and Table 2, is an economic unit, such as a farm, factory, or store, which produces goods or provides services at a single physical worksite and is engaged, predominantly, in one type of economic activity.

The **Quarterly Census of Employment and Wages**, or the **QCEW**, used in Charts 5-6 and Table 2, produces comprehensive data on the number of establishments, monthly employment, and quarterly wages for workers covered by state unemployment insurance (UI) laws and federal workers covered by the Unemployment Compensation for Federal Employees (UCFE) program. These data are aggregated to many different levels, starting at the 6-digit NAICS industry level, to higher industry levels (NAICS industry groups, sectors, and supersectors), and to higher geographic levels (MSA, state, and national).

Data are based on information reported by New Mexico employers, covering 97% of nonfarm wage and salary workers. Data are published every quarter. Considered the gold standard for its reliability of industry data, the QCEW data are the most complete universe of monthly employment and quarterly wage information by detailed industry.

Table 2. FY24 - Q3 Employment Data and Establishments by Industry

Industry	Average Employment	YOY Change in Average Employment	Average Weekly Wage	YOY change in Average Weekly Wage	Number of Establishments	YOY Change in Establishments
