

Quarterly Economic Summary

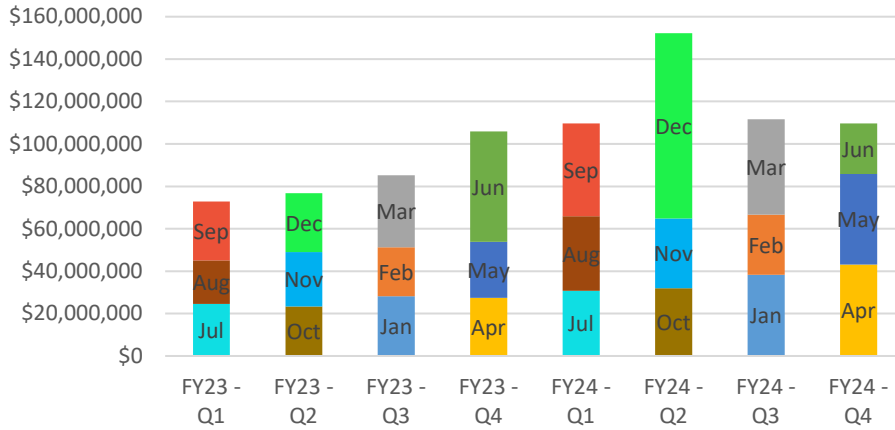

Torrance County

Released: September 2024

Prepared by: Joel Salas, Economist; Daye Kwon, Economist

Chart 1. Matched Taxable Gross Receipts Per Quarter

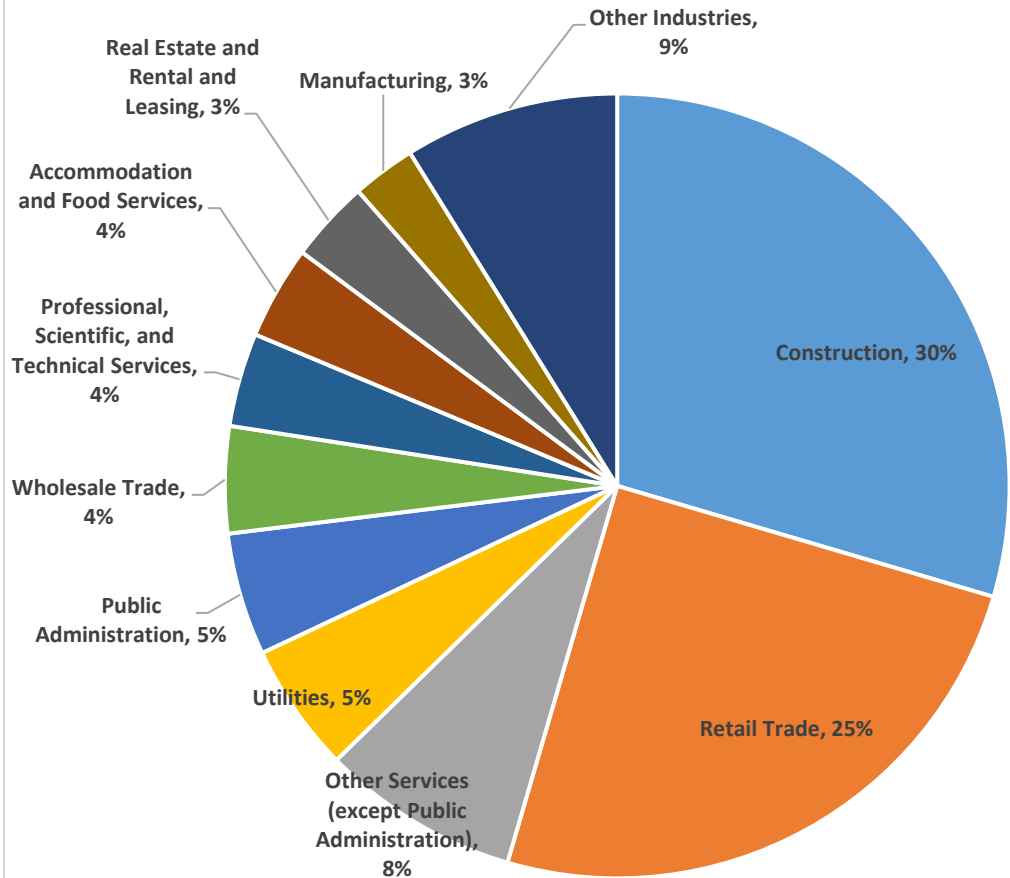

In the fourth quarter of FY24, 23 out of 33 counties reported positive year-over-year (YOY) economic growth, with a statewide 3.2% increase in matched taxable gross receipts (MTGR). Statewide growth was seen across most industry sectors, with professional, scientific, and technical services and other services leading. Employment, wages, and the number of establishments are up YOY in New Mexico.

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

Torrance County's MTGR declined slightly from Q3 FY24 to Q4 FY24 by \$2.1M, or 1.8%, but overall shows a stable trend, except for the sharp increase in Q2 FY24. Construction and retail trade industries were the top two sectors by MTGR in Q4 FY24, as seen in Chart 2. Table 1 on the next page shows a YOY increase of 3% in Q4 FY24 across all industries compared to Q4 FY23, with public administration being the largest contributor.

Chart 2. FY24 - Q4 Industry Size by Matched Taxable Gross Receipts

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

Matched Taxable Gross Receipts (MTGR) are the best tax data available to show underlying economic activity. The data collection process matches a tax payment with reported receipts for each taxpayer by industry.

Gross receipts tax (GRT) revenue collections decreased by \$41.9K, or 3%, from Q3 to Q4 FY24, as shown in Chart 4. Although the GRT collections have declined for the last two quarters, Torrance County recorded the highest annual total GRT collections in FY24 (Chart 3), driven by increased collections in the first two quarters of FY24.

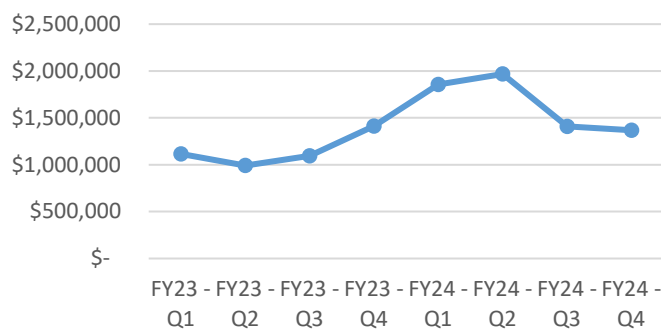

As seen in Chart 5, Q3 FY24 total average employment in the county declined by 90 YOY, equating to a percentage decrease of 2.8%. Average weekly wages in Q3 FY24 experienced a YOY increase of \$54, an increase of 5.7%.

Quarterly Economic Summary

Torrance County

Chart 6. Establishment Year Over Year % Change

An **establishment**, as used in the QCEW and subsequently Chart 6 and Table 2, is an economic unit, such as a farm, factory, or store, which produces goods or provides services at a single physical worksite and is engaged, predominantly, in one type of economic activity.

The **Quarterly Census of Employment and Wages**, or the **QCEW**, used in Charts 5-6 and Table 2, produces comprehensive data on the number of establishments, monthly employment, and quarterly wages for workers covered by state unemployment insurance (UI) laws and federal workers covered by the Unemployment Compensation for Federal Employees (UCFE) program. These data are aggregated to many different levels, starting at the 6-digit NAICS industry level, to higher industry levels (NAICS industry groups, sectors, and supersectors), and to higher geographic levels (MSA, state, and national).

Data are based on information reported by New Mexico employers, covering 97% of nonfarm wage and salary workers. Data are published every quarter. Considered the gold standard for its reliability of industry data, the QCEW data are the most complete universe of monthly employment and quarterly wage information by detailed industry.

Table 2. FY24 - Q3 Employment Data and Establishments by Industry

Industry	Average Employment	YOY Change in Average Employment	Average Weekly Wage	YOY change in Average Weekly Wage	Number of Establishments	YOY Change in Establishments
