

# Quarterly Economic Summary

## Quay County

Released: December 2024

Prepared by: Daye Kwon, Economist

Chart 1. Matched Taxable Gross Receipts Per Quarter

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

In the first quarter of FY25, 20 out of 33 counties reported positive year-over-year (YOY) economic growth compared to Q1 FY24, with a statewide 1.8% increase in matched taxable gross receipts (MTGR). Statewide growth was observed across most industry sectors, with the construction industry leading the way. Employment, wages, and the number of establishments have also increased YOY at the state level.

Over the last eight quarters, Quay County's MTGR has averaged \$57.6M, which is \$17.3M less than the amount reported during Q1 FY25. From Q4 FY24 to Q1 FY25, MTGR grew by nearly 20%, or \$12.4M. With this increase, MTGR in the county shows an upward trend (Chart 1). As seen in Chart 2, retail trade and construction accounted for 49% of total MTGR. Last quarter, retail trade was followed by accommodation and food services.

Chart 2. FY25 - Q1 Industry Size by Matched Taxable Gross Receipts

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

**Matched Taxable Gross Receipts (MTGR)** provide the most accurate tax data for assessing underlying economic activity. The data collection process involves matching tax payments with reported receipts for each taxpayer by industry.

Table 1 shows that, when comparing YOY MTGR changes, the largest contribution came from the construction industry, which posted a YOY increase of \$11.2M. The largest decline came from the other services industry, which posted a YOY decrease of \$1.25M.

Quarterly gross receipts tax (GRT) collected during Q1 FY25 (\$1.4M) was nearly 48% higher than the amount collected during Q4 FY24 (\$979K), as seen in Chart 4. Over the last eight quarters, GRT collections have averaged \$958K and have shown an upward trend.

Chart 6. Establishment Year Over Year % Change

Source: NM DWS - Quarterly Census of Employment and Wages and EDD Calculations

An **establishment**, as defined by the Quarterly Census of Employment and Wages (QCEW) and referenced in Chart 6, is an economic unit, such as a farm, factory, or store, located at a single physical address and engaged in one type of economic activity.

**Gross Domestic Product (GDP)** measures the value of all goods and services produced within a specific area. Changes in GDP from one period to another are important indicators of how the economy is performing. Chart 7 illustrates the YOY percentage change in real GDP for calendar years. Table 2 below details the percentage contribution of each industry to the total GDP for a specific county and how each industry's GDP changed compared to the previous calendar year.
