

Quarterly Economic Summary

Eddy County

Released: July 2025

Prepared by: Daye Kwon, Economist; Jackson Paternoster, Economist Intern

Chart 1. Matched Taxable Gross Receipts Per Quarter

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

In the third quarter of FY25, 26 out of 33 counties reported positive year-over-year (YOY) economic growth compared to Q3 FY24, with a statewide 5.9% increase in matched taxable gross receipts (MTGR). Statewide growth was observed across most industry sectors, with construction and unclassified establishments leading the way. Employment, wages, and the number of establishments also increased YOY in New Mexico in Q2 FY25.

Eddy County's MTGR increased by \$95.5M, or 2.6%, from Q2 FY25 to Q3 FY25, as seen in Chart 1. The amount reported during Q3 FY25 (\$3.79B) was \$214M higher than the eight-quarter average (\$3.58B). As seen in Chart 2, the largest industry as a percentage of MTGR was mining, quarrying, and oil and gas extraction (37%), followed by retail trade (11%), similar to the prior quarter when they accounted for 40% and 10%, respectively.

Matched Taxable Gross Receipts (MTGR) provide the most accurate tax data for assessing underlying economic activity. The data collection process involves matching tax payments with reported receipts for each taxpayer by industry.

Table 1 shows that all but 6 industries reported a YOY increase in MTGR. The largest increase came from the manufacturing industry, which posted a YOY gain of \$94.3M. The largest decline came from the construction industry, which reported a YOY decrease of nearly \$85.1M.

Eddy County's quarterly gross receipts tax (GRT) collections during Q3 FY25 (\$27.4M), as seen in Chart 4, show an increase of \$773K, or 2.9%, compared to Q2 FY25. Both average employment and weekly wages grew by 1.5% and 3.5% YOY, respectively, in Q2 FY25 (Chart 5).

Eddy County

Chart 6. Establishment Year Over Year % Change

An **establishment**, as defined by the Quarterly Census of Employment and Wages (QCEW) and referenced in Chart 6, is an economic unit, such as a farm, factory, or store, located at a single physical address and engaged in one type of economic activity.

Source: NM DWS - Quarterly Census of Employment and Wages and EDD Calculations

The **Quarterly Census of Employment and Wages (QCEW)**, used in Charts 5-6 and Table 2, produces comprehensive data on the number of establishments, monthly employment, and quarterly wages for workers covered by state unemployment insurance (UI) laws and federal workers covered by the Unemployment Compensation for Federal Employees (UCFE) program. These data are aggregated to many different levels, starting at the 6-digit NAICS industry level, to higher industry levels (NAICS industry groups, sectors, and supersectors), and to higher geographic levels (MSA, state, and national).

Data are based on information reported by New Mexico employers, covering 97% of nonfarm wage and salary workers. Data are published every quarter. Considered the gold standard for its reliability of industry data, the QCEW data are the most complete universe of monthly employment and quarterly wage information by detailed industry.

Table 2. FY25 - Q2 Employment Data and Establishments by Industry

Industry	Average Employment	YOY Change in Average Employment	Average Weekly Wage	YOY change in Average Weekly Wage	Number of Establishments	YOY Change in Establishments
