Quarterly Economic Summary Harding County

EDD

Released: December 2020

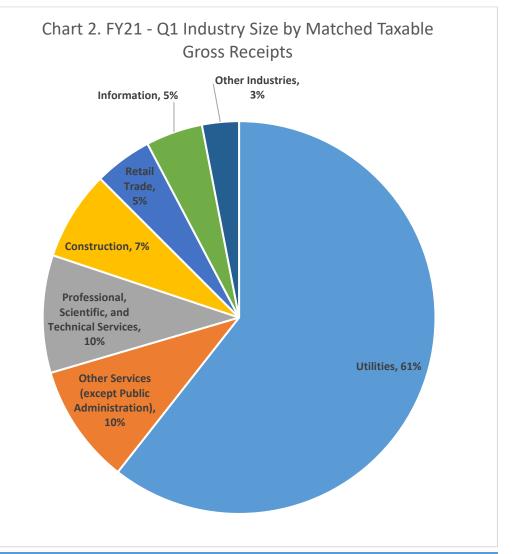

Prepared by: Joel Salas, Economist, and Ryan Eustice, Economist

The three months making up FY21 Q1 were the worst three months of the state's economic impact from COVID-19, comparing gross receipts data with the same period a year ago, despite 14 counties experiencing a year-over-year increase. The impacts were significantly worse due to lapsing federal support and no new federal aid package. Importantly, the federal bonus for unemployment benefits of an additional \$600/week expired, reducing consumer spending power.

Harding County has seen a relatively steady decline in its matched taxable gross receipts (MTGR) over the last eight quarters, seen in Chart 1. From Q4 FY20 to Q1 FY21 quarterly MTGR for Harding County declined by \$407K, or 12%. This downward trend in quarterly MTGR dates back Q1 The to FY19. reported amount during FY21 (\$2.95M) is the Q1 amount reported lowest over the last ten fiscal years. Table 1, on the next page, shows a decrease of \$1.7M from Q1 in FY20 to

Matched Taxable Gross Receipts (MTGR) is the best tax data available to show underlying economic activity. It matches a tax payment with reported receipts for each taxpayer, by industry.

Quarterly Economic Summary Harding County

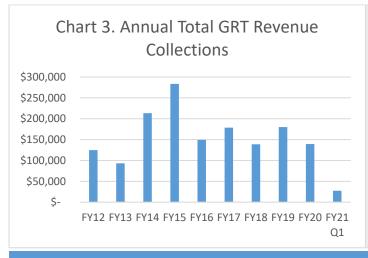

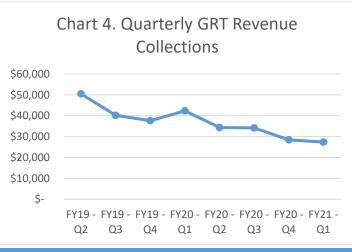

Table 1. Matched Taxable Gross Receipts by Industry												
Industries	FY20 - Q1 FY21 - Q1				Growth Year over year Change							
Accommodation and Food Services	\$	13,806	\$	2,079	\$	(11,727)		-85%				
Administrative/Support & Waste Management/Remediation	\$	24,530	\$	12,351	\$	(12,180)		-50%				
Agriculture, Forestry, Fishing, and Hunting	\$	33,773	\$	10,857	\$	(22,916)		-68%				
Arts, Entertainment, and Recreation	\$	-	\$	-	\$	- N	/A					
Construction	\$	1,726,565	\$	194,435	\$	(1,532,130)		-89%				
Educational Services	\$	-	\$	-	\$	- N	/A					
Finance and Insurance	\$	9	\$	-	\$	(9)		-100%				
Health Care and Social Assistance	\$	-	\$	-	\$	- N	/A					
Information	\$	206,632	\$	123,658	\$	(82,975)		-40%				
Manufacturing	\$	49,442	\$	26,716	\$	(22,725)		-46%				
Mining, Quarrying, and Oil and Gas Extraction	\$	29,152	\$	-	\$	(29,152)		-100%				
Other Services (except Public Administration)	\$	274,001	\$	260,435	\$	(13,566)		-5%				
Professional, Scientific, and Technical Services	\$	221,161	\$	255,492	\$	34,332		16%				
Public Administration	\$	26,850	\$	-	\$	(26,850)		-100%				
Real Estate and Rental and Leasing	\$	-	\$	4,771	\$	4,771 N	/A .					
Retail Trade	\$	196,338	\$	126,170	\$	(70,168)		-36%				
Transportation and Warehousing	\$	-	\$	16,259	\$	16,259 N	/A .					
Unclassified Establishments	\$	148	\$	1,149	\$	1,002		677%				
Utilities	\$	1,652,888	\$	1,599,616	\$	(53,272)		-3%				
Wholesale Trade	\$	13,277	\$	5,986	\$	(7,291)		-55%				
All Industries	\$	4,725,419	\$	2,953,242	\$	(1,772,177)		-38%				

FY21 of the same period. From Q1 in FY20 to FY21 of the same period, the largest year over year loss occurred in the construction industry, which posted a \$1.5M decline, or 89%. The loss in this industry accounted for nearly 86% of the total lost revenue when comparing Q1 FY20 to Q1 FY21.

Gross receipts tax (GRT) revenue collections have continued to decline over the last eight quarters, as seen in Chart 4. From Q4 FY20 to Q1 FY21 quarterly collections decreased by 4%, or nearly \$1K.

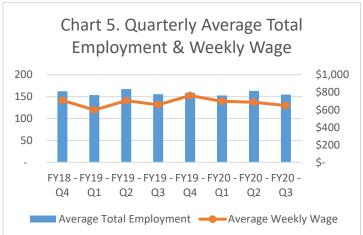

HB6, passed in 2019, made widespread tax changes within New Mexico. One notable change is the conversion to destination-based sourcing that will begin after a two-year delay. During the 2020 Special Session, that legislation was amended, increasing a temporary distribution to municipalities and counties. Now municipalities will receive a distribution that is a portion of \$2.5 million while counties will receive a distribution that is a portion of \$1.5 million. The amounts distributed will be proportional to the size of that community's population versus that of the entire group. These amounts are subject to change if the federal government provides municipalities and counties future grants to offset revenue declines attributable to COVID-19.

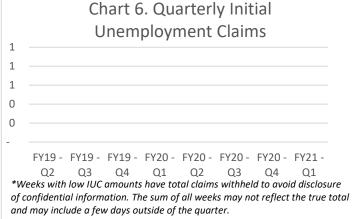

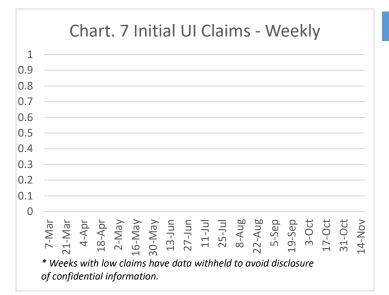

Quarterly Economic Summary Harding County

significant unexplained increase unemployment claims can be an early indicator of an economic downturn. Explained increases commonly include seasonal job fluctuations, federal government shutdowns resulting in employee furloughs, or the closing of a major regional facility. This unprecedented uptick in initial unemployment claims is tied directly to the COVID-19 pandemic and subsequent furloughs and layoffs by affected businesses. As we continue into early and mid-2021, it is likely the number of initial unemployment claims will vary based on the effects of the pandemic but gradually wane; however, it is impossible to predict how quickly the employment numbers will return to pre-COVID-19 levels.

<u>Chart 7</u> – Includes weekly initial claims for regular unemployment insurance (UI) but excludes pandemic unemployment assistance (PUA) and pandemic emergency unemployment assistance (PEUA) claims. Weeks shown as zero were redacted for confidentiality.

<u>Chart 8</u> – Includes claimants receiving payment and pending certifications for standard UI, PUA, PEUA, extended benefits, and trade readjustment allowances. As of 11/2/2020, claimants who were initially considered eligible but have either never filed a certification or have not certified within 14 days have been removed from data, resulting in lower numbers.
