Quarterly Economic Summary

San Miguel County

Released: December 2020

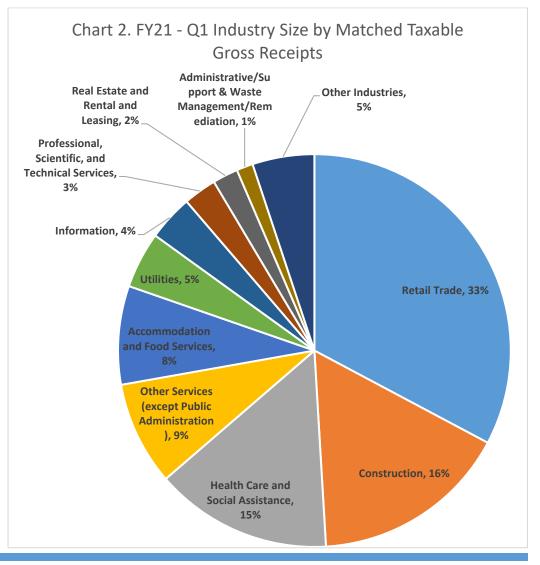

Prepared by: Joel Salas, Economist, and Ryan Eustice, Economist

The three months making up FY21 Q1 were the worst three months of the state's economic impact from COVID-19, comparing gross receipts data with the same period a year ago, despite 14 counties experiencing a year-over-year increase. The impacts were significantly worse due to lapsing federal support and no new federal aid package. Importantly, the federal bonus for unemployment benefits of an additional \$600/week expired, reducing consumer spending power.

San Miguel County saw its taxable matched gross receipts (MTGR) increase by \$1.8M, or 2%, from Q4 FY20 to Q1 FY21, as seen in Chart 1. Chart 2 shows that the retail trade sector accounted for 33% of the total MTGR collected by San Miguel County in Q1 FY21. From Q4 FY20 to Q1 FY21, the percentage share of MTGR that is made up by the retail trade industry has remained consistent at 33%. Table 1, on the next page, shows a decrease of

Matched Taxable Gross Receipts (MTGR) is the best tax data available to show underlying economic activity. It matches a tax payment with reported receipts for each taxpayer, by industry.

Quarterly Economic Summary San Miguel County

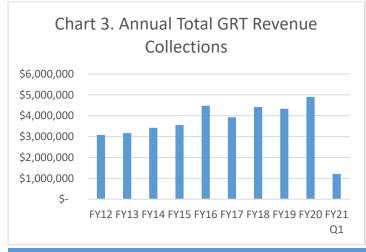

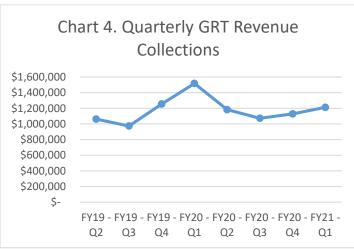

Table 1. Matched Taxable Gross Receipts by Industry									
Industries	FY20 - Q1			FY21 - Q1		Growth	Year over year Change		
Accommodation and Food Services	\$	11,879,058	\$	7,707,642	\$	(4,171,416)			-35%
Administrative/Support & Waste Management/Remediation	\$	1,142,467	\$	1,290,159	\$	147,692			13%
Agriculture, Forestry, Fishing, and Hunting	\$	486,063	\$	539,478	\$	53,415			11%
Arts, Entertainment, and Recreation	\$	109,221	\$	105,848	\$	(3,373)			-3%
Construction	\$	40,411,584	\$	15,454,770	\$	(24,956,815)			-62%
Educational Services	\$	48,152	\$	84,798	\$	36,646			76%
Finance and Insurance	\$	270,476	\$	262,956	\$	(7,519)			-3%
Health Care and Social Assistance	\$	10,934,821	\$	13,868,488	\$	2,933,667			27%
Information	\$	5,747,156	\$	3,567,277	\$	(2,179,880)			-38%
Manufacturing	\$	846,339	\$	1,122,880	\$	276,540			33%
Mining, Quarrying, and Oil and Gas Extraction	\$	-	\$	-	\$	-	N/A		
Other Services (except Public Administration)	\$	9,365,224	\$	8,108,314	\$	(1,256,910)			-13%
Professional, Scientific, and Technical Services	\$	2,495,458	\$	2,594,748	\$	99,290			4%
Public Administration	\$	-	\$	84,118	\$	84,118	N/A		
Real Estate and Rental and Leasing	\$	2,077,566	\$	1,989,079	\$	(88,488)			-4%
Retail Trade	\$	27,957,744	\$	31,124,738	\$	3,166,995			11%
Transportation and Warehousing	\$	1,132,382	\$	1,203,297	\$	70,915			6%
Unclassified Establishments	\$	245,648	\$	293,410	\$	47,763			19%
Utilities	\$	4,054,118	\$	4,403,191	\$	349,073			9%
Wholesale Trade	\$	1,252,051	\$	1,141,294	\$	(110,757)			-9%
All Industries	\$	121,090,632	\$	95,593,811	\$	(25,496,821)			-21%

\$25.5M from Q1 in FY20 to FY21 of the same period for total MGTR. The largest contributor to the year over year loss was the construction industry, which contracted by \$25M when comparing Q1 FY20 to Q1 FY21.

Gross receipts tax (GRT) revenue collections increased in Q1 FY21, as seen in Chart 4. From Q4 FY20 to Q1 FY21, quarterly collections increased by \$83K, or 7%. When comparing Q1 FY20 to Q1 FY21 the year over year quarterly collections decreased by \$1.2M, or 20%.

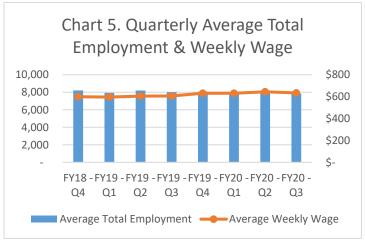

HB6, passed in 2019, made widespread tax changes within New Mexico. One notable change is the conversion to destination-based sourcing that will begin after a two-year delay. During the 2020 Special Session, that legislation was amended, increasing a temporary distribution to municipalities and counties. Now municipalities will receive a distribution that is a portion of \$2.5 million while counties will receive a distribution that is a portion of \$1.5 million. The amounts distributed will be proportional to the size of that community's population versus that of the entire group. These amounts are subject to change if the federal government provides municipalities and counties future grants to offset revenue declines attributable to COVID-19.

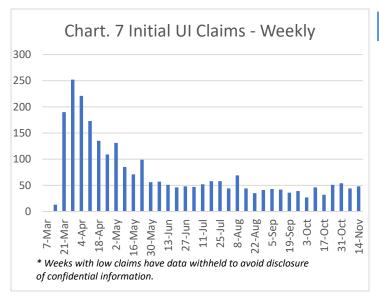

Quarterly Economic Summary San Miguel County

significant unexplained increase unemployment claims can be an early indicator of an economic downturn. Explained increases commonly include seasonal job fluctuations, federal government shutdowns resulting in employee furloughs, or the closing of a major regional facility. This unprecedented uptick in initial unemployment claims is tied directly to the COVID-19 pandemic and subsequent furloughs and layoffs by affected businesses. As we continue into early and mid-2021, it is likely the number of initial unemployment claims will vary based on the effects of the pandemic but gradually wane; however, it is impossible to predict how quickly the employment numbers will return to pre-COVID-19 levels.

<u>Chart 7</u> – Includes weekly initial claims for regular unemployment insurance (UI) but excludes pandemic unemployment assistance (PUA) and pandemic emergency unemployment assistance (PEUA) claims. Weeks shown as zero were redacted for confidentiality.

<u>Chart 8</u> – Includes claimants receiving payment and pending certifications for standard UI, PUA, PEUA, extended benefits, and trade readjustment allowances. As of 11/2/2020, claimants who were initially considered eligible but have either never filed a certification or have not certified within 14 days have been removed from data, resulting in lower numbers.
