Quarterly Economic Summary Sandoval County

Released: December 2020

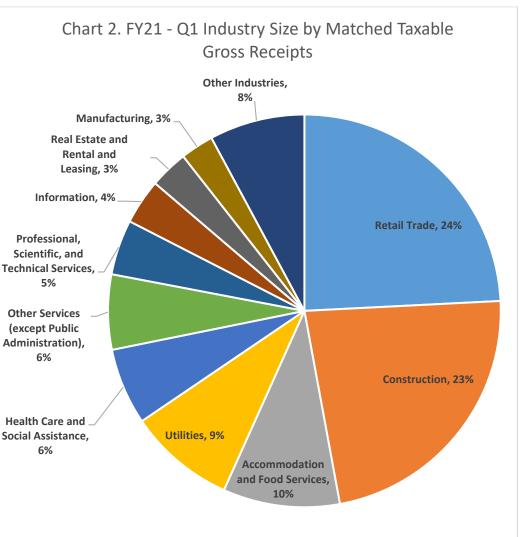

Prepared by: Joel Salas, Economist, and Ryan Eustice, Economist

The three months making up FY21 Q1 were the worst three months of the state's economic impact from COVID-19, comparing gross receipts data with the same period a year ago, despite 14 counties experiencing a year-over-year increase. The impacts were significantly worse due to lapsing federal support and no new federal aid package. Importantly, the federal bonus for unemployment benefits of an additional \$600/week expired, reducing consumer spending power.

Sandoval County saw а substantial decline in its matched taxable gross receipts (MTGR) from Q4 FY20 to Q1 FY21, as seen in Chart 1. From Q4 FY20 to Q1 FY21, Sandoval County's MTGR decreased by 22%, or \$123M. Despite this decline, Q1 FY21 MTGR collections were the fourth highest amount collected over the last twenty-one quarters. Table 1, on the next page, shows a decrease of \$1.2M from Q1 in FY19 to FY21 of the same period.

Matched Taxable Gross Receipts (MTGR) is the best tax data available to show underlying economic activity. It matches a tax payment with reported receipts for each taxpayer, by industry.

Quarterly Economic Summary Sandoval County

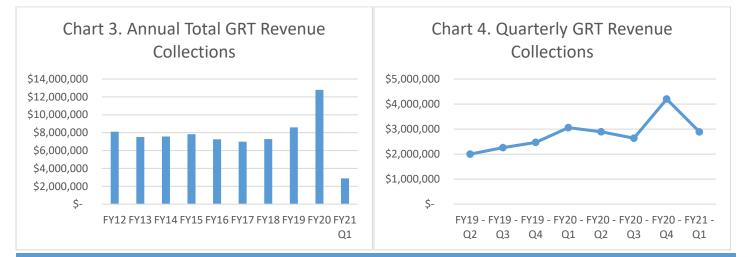

Table 1. Matched Taxable Gross Receipts by Industry								
Industries		FY20 - Q1		FY21 - Q1		Growth	Year over y	ear Change
Accommodation and Food Services	\$	44,275,032	\$	42,791,068	\$	(1,483,964)		-3%
Administrative/Support & Waste Management/Remediation	\$	9,015,117	\$	8,836,474	\$	(178,642)		-2%
Agriculture, Forestry, Fishing, and Hunting	\$	487,340	\$	1,008,645	\$	521,305		107%
Arts, Entertainment, and Recreation	\$	2,279,300	\$	2,224,121	\$	(55,180)		-2%
Construction	\$	89,548,763	\$:	101,912,987	\$	12,364,224		14%
Educational Services	\$	2,918,267	\$	5,163,886	\$	2,245,619		77%
Finance and Insurance	\$	1,032,681	\$	1,386,982	\$	354,301		34%
Health Care and Social Assistance	\$	27,379,632	\$	28,047,665	\$	668,033		2%
Information	\$	33,284,984	\$	16,548,814	\$	(16,736,169)		-50%
Management of Companies and Enterprises	\$	53,619	\$	68,782	\$	15,163		28%
Manufacturing	\$	10,973,656	\$	12,187,610	\$	1,213,954		11%
Mining, Quarrying, and Oil and Gas Extraction	\$	13,410,694	\$	536,624	\$	(12,874,071)		-96%
Other Services (except Public Administration)	\$	33,282,175	\$	27,488,776	\$	(5,793,399)		-17%
Professional, Scientific, and Technical Services	\$	20,810,700	\$	20,203,837	\$	(606,863)		-3%
Public Administration	\$	16,912	\$	-	\$	(16,912)		-100%
Real Estate and Rental and Leasing	\$	13,672,387	\$	14,047,609	\$	375,223		3%
Retail Trade	\$	94,780,367	\$:	107,646,891	\$	12,866,524		14%
Transportation and Warehousing	\$	5,338,542	\$	4,046,359	\$	(1,292,183)		-24%
Unclassified Establishments	\$	1,261,779	\$	1,579,269	\$	317,489		25%
Utilities	\$	35,468,774	\$	39,125,977	\$	3,657,203		10%

Despite large year over year gains from the construction (\$12M) and retail trade (\$12.8M) sectors, massive declines in the information (\$16.7M) and mining, quarrying, and oil and gas extraction (\$12.8M) industries led to the negative change in Sandoval County's total MTGR when comparing the two time periods.

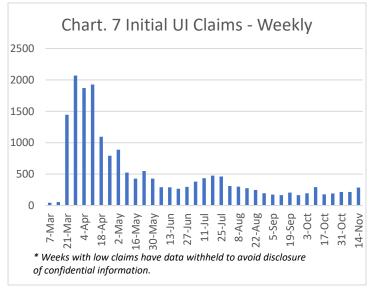

Gross receipts tax (GRT) revenue collections declined in Q1 FY21, as seen in Chart 4. From Q4 FY20 to Q1 FY21 quarterly collections declined by \$1.3M, or 31%. HB6, passed in 2019, made widespread tax changes within New Mexico. One notable change is the conversion to destinationbased sourcing that will begin after a two-year delay. During the 2020 Special Session, that legislation was amended, increasing a temporary distribution to municipalities and counties. Now municipalities will receive a distribution that is a portion of \$2.5 million while counties will receive a distribution that is a portion of \$1.5 million. The amounts distributed will be proportional to the size of that community's population versus that of the entire group. These amounts are subject to change if the federal government provides municipalities and counties future grants to offset revenue declines attributable to COVID-19.

Quarterly Economic Summary Sandoval County

<u>Chart 7</u> – Includes weekly initial claims for regular unemployment insurance (UI) but excludes pandemic unemployment assistance (PUA) and pandemic emergency unemployment assistance (PEUA) claims. Weeks shown as zero were redacted for confidentiality.

<u>Chart 8</u> – Includes claimants receiving payment and pending certifications for standard UI, PUA, PEUA, extended benefits, and trade readjustment allowances. As of 11/2/2020, claimants who were initially considered eligible but have either never filed a certification or have not certified within 14 days have been removed from data, resulting in lower numbers.

A significant unexplained increase in initial unemployment claims can be an early indicator of an economic downturn. Explained increases commonly include seasonal job fluctuations, federal government shutdowns resulting in employee furloughs, or the closing of a major regional facility. This unprecedented uptick in initial unemployment claims is tied directly to the COVID-19 pandemic and subsequent furloughs and layoffs by affected businesses. As we continue into early and mid-2021, it is likely the number of initial unemployment claims will vary based on the effects of the pandemic but gradually wane; however, it is impossible to predict how quickly the employment numbers will return to pre-COVID-19 levels.
