Quarterly Economic Summary

EDD ECONOMIC DEVELOPMENT DEPARTMENT

Released: December 2020

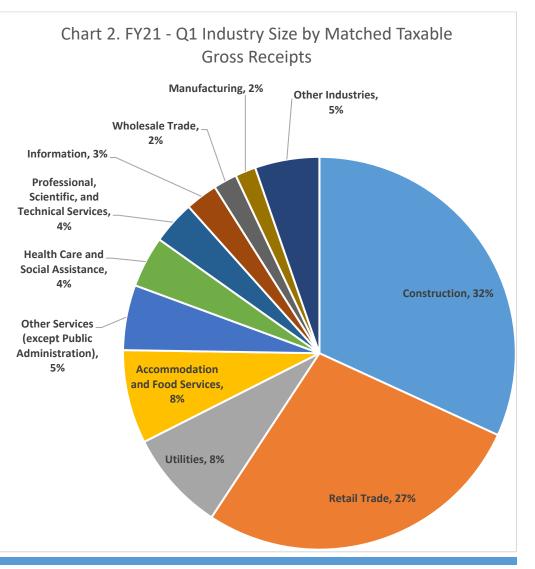

Prepared by: Joel Salas, Economist, and Ryan Eustice, Economist

The three months making up FY21 Q1 were the worst three months of the state's economic impact from COVID-19, comparing gross receipts data with the same period a year ago, despite 14 counties experiencing a year-over-year increase. The impacts were significantly worse due to lapsing federal support and no new federal aid package. Importantly, the federal bonus for unemployment benefits of an additional \$600/week expired, reducing consumer spending power.

Valencia County saw its matched taxable receipts (MTGR) gross increase by \$30M (11%) from Q4 FY20 to Q1 FY21, as seen in Chart 1. MTGR during first quarter of FY21 the were the largest amount collected for Valencia Chart 2 shows County. that the construction industry continues to make up the largest portion of MTGR in Valencia County (32%). Table 1, on the next page, shows an increase of \$58M from Q1 FY20 to the same time

Matched Taxable Gross Receipts (MTGR) is the best tax data available to show underlying economic activity. It matches a tax payment with reported receipts for each taxpayer, by industry.

Quarterly Economic Summary Valencia County

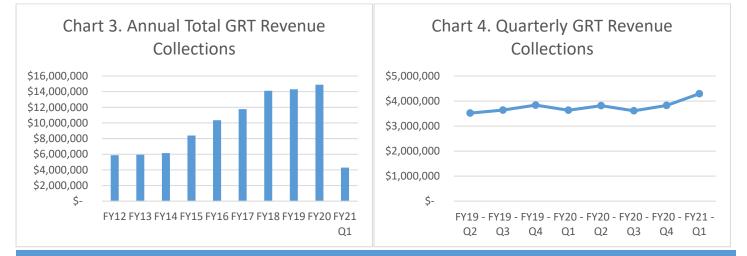

Table 1. Matched	Taxable Gross	Receipts by	/ Industry
------------------	----------------------	-------------	------------

Industries	FY20 - Q1	F	Y21 - Q1	•	Growth	Year over	ear Cha	nge
Accommodation and Food Services	\$ 21,692,527	\$	23,280,543	\$	1,588,016			7%
Administrative/Support & Waste Management/Remediation	\$ 2,674,375	\$	3,454,695	\$	780,320			29%
Agriculture, Forestry, Fishing, and Hunting	\$ 945,031	\$	1,290,747	\$	345,716			37%

Finance and Insurance	\$ 843,884	\$	1,102,110	\$	258,226			31%
Health Care and Social Assistance	\$ 12,439,837	\$	12,742,175	\$	302,337			2%
Information	\$ 16,341,897	\$	8,018,185	\$	(8,323,712)		-	·51%
Management of Companies and Enterprises	\$ -	\$	-	\$	-	N/A		
Manufacturing	\$ 4,491,994	\$	5,130,815	\$	638,821			14%
Mining, Quarrying, and Oil and Gas Extraction	\$ 31,873	\$	69,114	\$	37,241		1	17%
Other Services (except Public Administration)	\$ 14,143,995	\$	16,204,267	\$	2,060,272			15%
Professional, Scientific, and Technical Services	\$ 6,158,389	\$	10,777,929	\$	4,619,541			75%
Public Administration	\$ 15,573	\$	-	\$	(15,573)		-1	.00%
Real Estate and Rental and Leasing	\$ 4,449,330	\$	4,940,603	\$	491,273			11%
Retail Trade	\$ 68,738,598	\$	82,820,807	\$	14,082,209			20%
Transportation and Warehousing	\$ 2,710,780	\$	2,891,590	\$	180,810			7%
Unclassified Establishments	\$ 926,130	\$	1,315,439	\$	389,309			42%
Utilities	\$ 19,988,360	\$	25,040,303	\$	5,051,943			25%
Wholesale Trade	\$ 5,409,063	\$	5,873,553	\$	464,490			9%
All Industries	\$ 244,116,473	\$3	02,107,522	\$	57,991,049			24%

period in FY21. This increase is primarily due to the construction and retail trade sectors. Together these two accounted for nearly \$49M in year over year growth in MTGR.

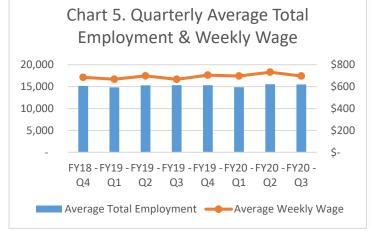

Gross receipts tax (GRT) revenue collections have seen nearly stable growth over the last eight quarters, shown in Chart 4. From Q4 FY20 to Q1 FY21 quarterly collections have increased by \$466K, or 12%. When comparing Q1 FY20 to Q1 FY21 quarterly collections have increased by \$660K, or 18%.

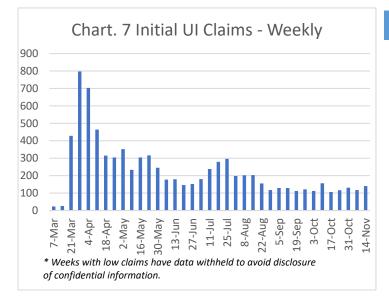

HB6, passed in 2019, made widespread tax changes within New Mexico. One notable change is the conversion to destinationbased sourcing that will begin after a two-year delay. During the 2020 Special Session, that legislation was amended, increasing a temporary distribution to municipalities and counties. Now municipalities will receive a distribution that is a portion of \$2.5 million while counties will receive a distribution that is a portion of \$1.5 million. The amounts distributed will be proportional to the size of that community's population versus that of the entire group. These amounts are subject to change if the federal government provides municipalities and counties future grants to offset revenue declines attributable to COVID-19.

Quarterly Economic Summary Valencia County

<u>Chart 7</u> – Includes weekly initial claims for regular unemployment insurance (UI) but excludes pandemic unemployment assistance (PUA) and pandemic emergency unemployment assistance (PEUA) claims. Weeks shown as zero were redacted for confidentiality.

<u>Chart 8</u> – Includes claimants receiving payment and pending certifications for standard UI, PUA, PEUA, extended benefits, and trade readjustment allowances. As of 11/2/2020, claimants who were initially considered eligible but have either never filed a certification or have not certified within 14 days have been removed from data, resulting in lower numbers.

A significant unexplained increase in initial unemployment claims can be an early indicator of an economic downturn. Explained increases commonly include seasonal job fluctuations, federal government shutdowns resulting in employee furloughs, or the closing of a major regional facility. This unprecedented uptick in initial unemployment claims is tied directly to the COVID-19 pandemic and subsequent furloughs and layoffs by affected businesses. As we continue into early and mid-2021, it is likely the number of initial unemployment claims will vary based on the effects of the pandemic but gradually wane; however, it is impossible to predict how quickly the employment numbers will return to pre-COVID-19 levels.
