## Quarterly Economic Summary Harding County

Released: May 2020

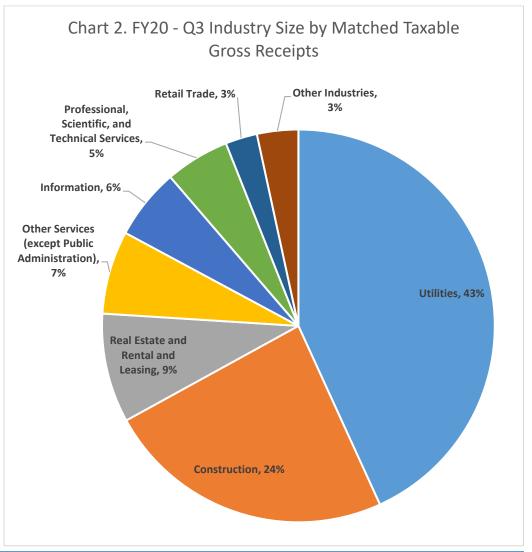

Prepared by: Joel Salas, Economist, and Ryan Eustice, Economist

Due to the necessity of the statewide business closure, which went into effect on March 24th, and the health and economic effects COVID-19 had since early March, matched taxable gross receipts and revenue collections may have declined in the third quarter of FY20. Most of the gross receipts tax decline is due to COVID-19 and the loss in business revenue, but potential delays in taxpayer reporting may add to the level of decline seen in the quarter. It is anticipated that the next quarter will have greater declines.

Harding County has seen its matched taxable gross receipts (MTGR) trend downward over the last eight quarters, as seen in Chart 1. Harding County's MTGR hit a peak in the second quarter of FY19, and since then has decreased by 32%. Table 1, on the next page, shows a year over year (YOY) decrease of \$860K from Q3 in FY19 to FY20 of the same period. Table 1 also shows the unclassified establishments industry posting a YOY

Matched Taxable Gross Receipts (MTGR) is the best tax data available to show underlying economic activity. It matches a tax payment with reported receipts for each taxpayer, by industry.

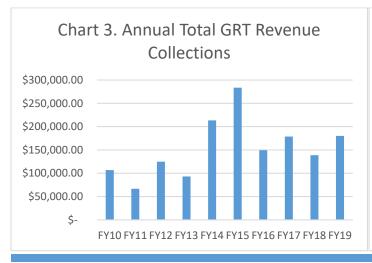

## Quarterly Economic Summary Harding County

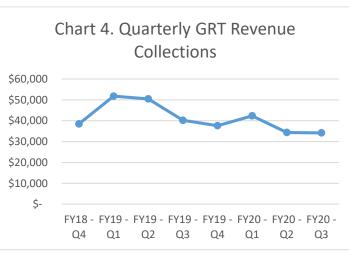

Table 1. Matched T	axable (	Gross Rece	eip	ts by Industi	ry			
Industries	ı	Y19 - Q3		FY20 - Q3		Growth	Year over y	ear Change
Accommodation and Food Services	\$	-	\$	7,302	\$	7,302	N/A	
Administrative/Support & Waste Management/Remediation	\$	13,454	\$	8,213	\$	(5,241)		-39%
Agriculture, Forestry, Fishing, and Hunting	\$	8,032	\$	7,016	\$	(1,015)		-13%
Arts, Entertainment, and Recreation	\$	-	\$	-	\$	-	N/A	
Construction	\$	1,588,820	\$	840,353	\$	(748,468)		-47%
Educational Services	\$	-	\$	60	\$	60	N/A	
Finance and Insurance	\$	424	\$	-	\$	(424)		-100%
Health Care and Social Assistance	\$	-	\$	-	\$	-	N/A	
Information	\$	195,044	\$	205,951	\$	10,907		6%
Manufacturing	\$	18,954	\$	27,559	\$	8,604		45%
Mining, Quarrying, and Oil and Gas Extraction	\$	102,176	\$	-	\$	(102,176)		-100%
Other Services (except Public Administration)	\$	286,403	\$	241,655	\$	(44,748)		-16%
Professional, Scientific, and Technical Services	\$	154,480	\$	186,807	\$	32,327		21%
Public Administration	\$	-	\$	-	\$	-	N/A	
Real Estate and Rental and Leasing	\$	5,002	\$	317,428	\$	312,426		6246%
Retail Trade	\$	501,516	\$	92,394	\$	(409,122)		-82%
Transportation and Warehousing	\$	-	\$	-	\$	-	N/A	
Unclassified Establishments	\$	284	\$	62,637	\$	62,353		21937%
Utilities	\$	1,506,526	\$	1,523,425	\$	16,899		1%
Wholesale Trade	\$	6,887	\$	6,966	\$	79		1%
All Industries	\$	4,388,002	\$	3,527,765	\$	(860,236)		-20%

growth of 21,937%. Industries are self-reported by the entity submitting the tax filings. This increase is likely due to a taxpayer reporting error with a misclassification of the industry. Gross receipts tax (GRT) revenue collections were flat in Q3 FY20, as seen in Chart 4. Similar to MTGR, the quarterly GRT revenue collections have been trending downward since Q1 FY19.

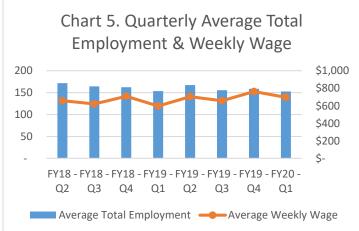

HB6, passed in 2019, made widespread tax changes within New Mexico. One notable change is the conversion to destination-based sourcing that will begin after a two-year delay. During this delay, local governments will receive a distribution that is a portion of \$2M each month. The portion distributed will be based on what the population of each county is to the total population of all counties, as per the most recent decennial census.

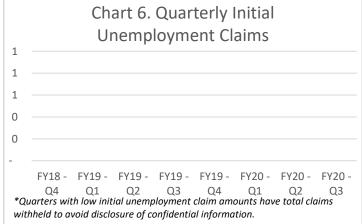

## Quarterly Economic Summary Harding County

The state makes "hold harmless" payments to local governments equal to the tax revenue that would have been generated if the state had not enacted deductions for food and healthcare practitioner services. These payments will be gradually phased out by 2029, but local governments were able to enact up to three 1/8% GRT increments to offset this loss. These GRT increments were repealed and consolidated in 2019 with a number of other restricted local options under the unrestricted countywide local option with an increased rate cap.

significant unexplained increase **Unemployment Claims** can be an early indicator of an incoming economic downturn. Explained increases commonly include seasonal iob fluctuations, government shutdowns resulting in mass employee furloughs and the closing of a major regional facility. The major uptick in the initial unemployment claims is directly tied to the COVID-19 outbreak and the subsequent closure of "non-essential" businesses. These businesses tend to be a major component of the workforce. As the stay at home order stays in effect, it is likely that the initial unemployment claims will continue to increase as the economy shifts to handle the unprecedented changes.
