## **New Mexico Film Office Announces Digital Interactive Production “Science Center Human Anatomy Project”**

**Santa Fe, NM** - Amber Dodson, the New Mexico Film Office Director, announced today that Ideum’s digital media piece, “Science Center Human Anatomy Project,” is in its third phase and will be produced in New Mexico through the beginning of April.

Directed by James Spadaccini and produced by George Hardebeck and Stacy Hasselbacher Hernandez, “Science Center Human Anatomy Project” is a cutting-edge, 60-foot-tall immersive and interactive audiovisual piece crafted specifically for the museum space.

“We couldn't be more excited to work with our partners at Roto, a leading exhibit design company, and the Da Vinci Science Center in Allentown, PA,” Hardebeck said.

The digital exhibition creation will employ approximately 22 New Mexico crew members.
