In the third quarter of FY24, 27 out of 33 counties reported positive year-over-year (YOY) economic growth, with a statewide 8.5% increase in matched taxable gross receipts (MTGR). Statewide growth was seen across most industry sectors, with construction and professional, scientific, and technical services leading. As inflation remains stubborn, employment, wages, and the number of establishments are up YOY in New Mexico.

Over the last eight quarters, Roosevelt County's MTGR has averaged \$97.1M, \$2.6M higher than the amount reported during Q3 FY24 (\$94.6M). From Q2 FY24 to Q3 FY24, MTGR decreased by 5.3%, or just over \$5.3M. As seen in Chart 2, the utilities industry was the 2nd largest industry by share of MTGR (12%), up from 3rd in Q2 FY24 (7%). In Q2 FY24, the construction industry was the 2nd largest, accounting for 16% of total MTGR.

An **establishment**, as used in the QCEW and subsequently Chart 6 and Table 2, is an economic unit, such as a farm, factory, or store, which produces goods or provides services at a single physical worksite and is engaged, predominantly, in one type of economic activity.

The **Quarterly Census of Employment and Wages**, or the **QCEW**, used in Charts 5-6 and Table 2, produces comprehensive data on the number of establishments, monthly employment, and quarterly wages for workers covered by state unemployment insurance (UI) laws and federal workers covered by the Unemployment Compensation for Federal Employees (UCFE) program. These data are aggregated to many different levels, starting at the 6-digit NAICS industry level, to higher industry levels (NAICS industry groups, sectors, and supersectors), and to higher geographic levels (MSA, state, and national).

Data are based on information reported by New Mexico employers, covering 97% of nonfarm wage and salary workers. Data are published every quarter. Considered the gold standard for its reliability of industry data, the QCEW data are the most complete universe of monthly employment and quarterly wage information by detailed industry.
