

# Quarterly Economic Summary

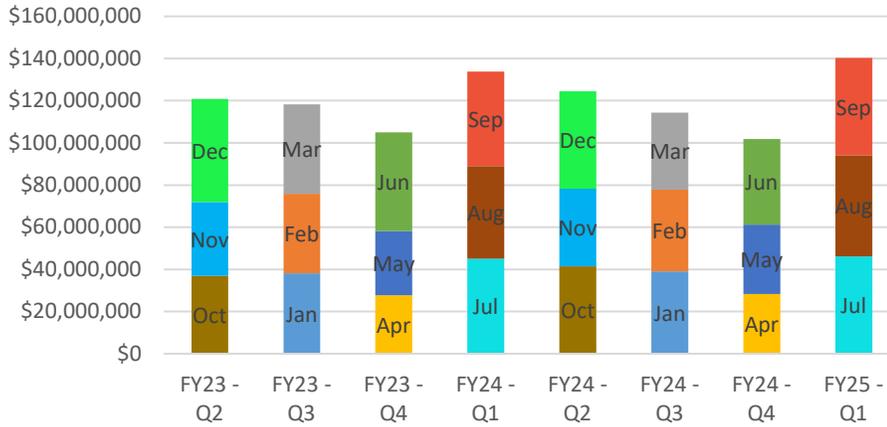

## Colfax County

Released: December 2024

Prepared by: Daye Kwon, Economist

Chart 1. Matched Taxable Gross Receipts Per Quarter

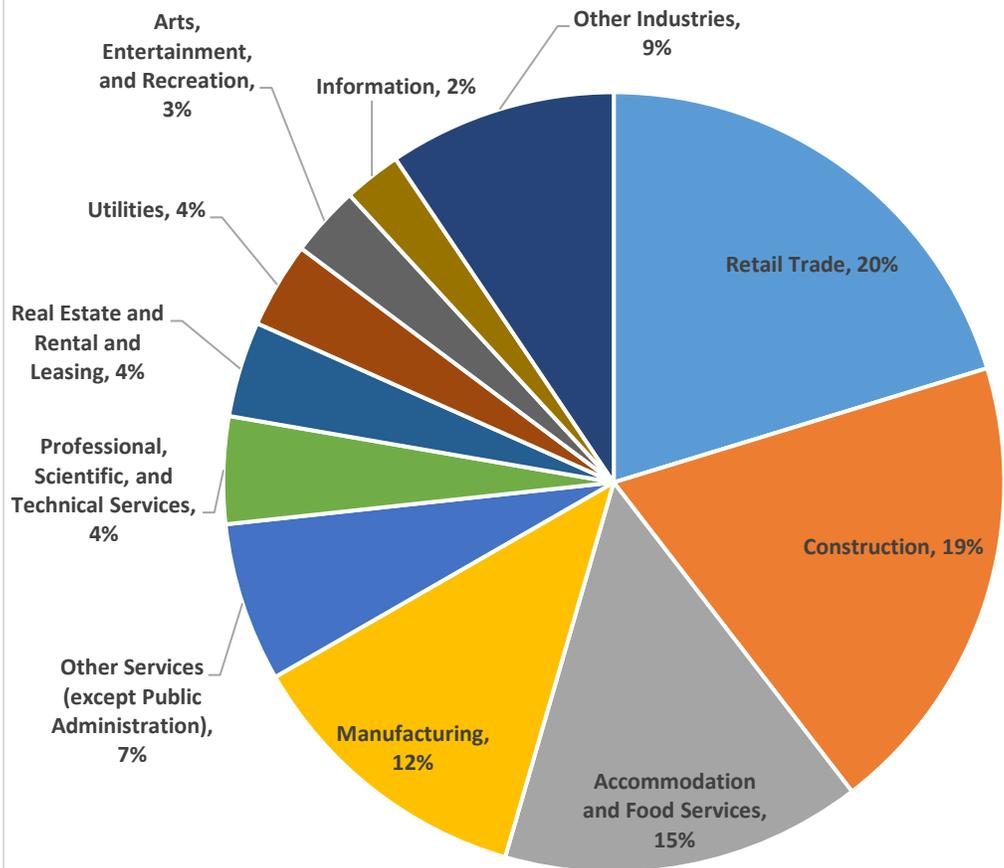

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

In the first quarter of FY25, 20 out of 33 counties reported positive year-over-year (YOY) economic growth compared to Q1 FY24, with a statewide 1.8% increase in matched taxable gross receipts (MTGR). Statewide growth was observed across most industry sectors, with the construction industry leading the way. Employment, wages, and the number of establishments have also increased YOY at the state level.

Colfax County's MTGR grew by \$38.5M, or nearly 38%, from Q4 FY24 to Q1 of FY25 (Chart 1). As shown in Chart 2, retail trade, construction, and accommodation and food services remained the top three industries by MTGR in Q1 FY25, consistent with the previous quarter. Table 1 on the next page shows a 5% YOY increase in MTGR in Q1 FY25 compared to Q1 FY24. The manufacturing industry was the largest contributor to this growth.

Chart 2. FY25 - Q1 Industry Size by Matched Taxable Gross Receipts

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

**Matched Taxable Gross Receipts (MTGR)** provide the most accurate tax data for assessing underlying economic activity. The data collection process involves matching tax payments with reported receipts for each taxpayer by industry.

Gross receipts tax (GRT) revenue collections increased by nearly \$485K, or just over 86%, from Q4 FY24 to Q1 of FY25, as shown in Chart 4. Over the last eight quarters, GRT collections have averaged \$728K, and the Q1 FY25 figure of \$1.05M marks the highest level during this period.

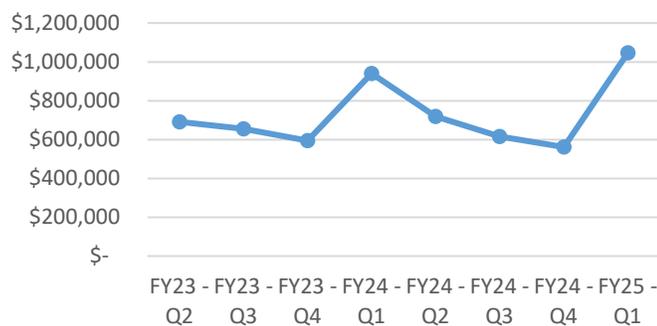

Q4 FY24 total employment in the county grew slightly by 0.2% YOY (Chart 5). Average weekly wages also experienced a YOY increase of 3.5%, or \$29. The YOY change in the number of establishments again turned negative (-0.5%) after showing positive YOY growth in Q3 FY24, as seen in Chart 6 on the next page.

Chart 6. Establishment Year Over Year % Change

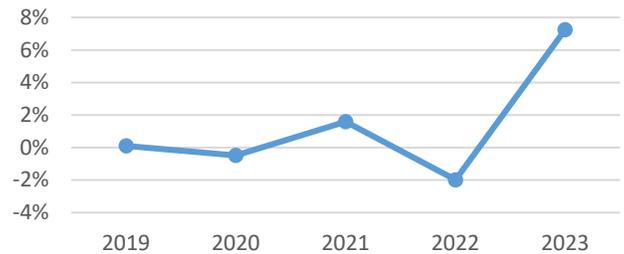

Source: NM DWS - Quarterly Census of Employment and Wages and EDD Calculations

An **establishment**, as defined by the Quarterly Census of Employment and Wages (QCEW) and referenced in Chart 6, is an economic unit, such as a farm, factory, or store, located at a single physical address and engaged in one type of economic activity.

**Gross Domestic Product (GDP)** measures the value of all goods and services produced within a specific area. Changes in GDP from one period to another are important indicators of how the economy is performing. Chart 7 illustrates the YOY percentage change in real GDP for calendar years. Table 2 below details the percentage contribution of each industry to the total GDP for a specific county and how each industry's GDP changed compared to the previous calendar year.
