

Quarterly Economic Summary

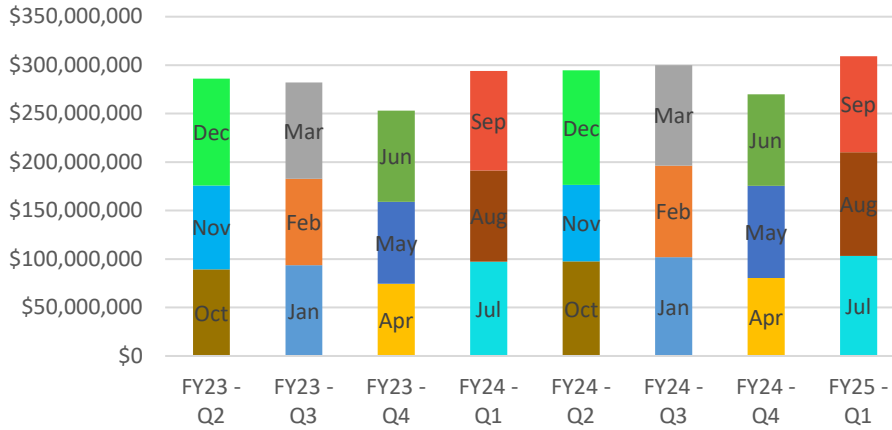

Taos County

Released: December 2024

Prepared by: Daye Kwon, Economist

Chart 1. Matched Taxable Gross Receipts Per Quarter

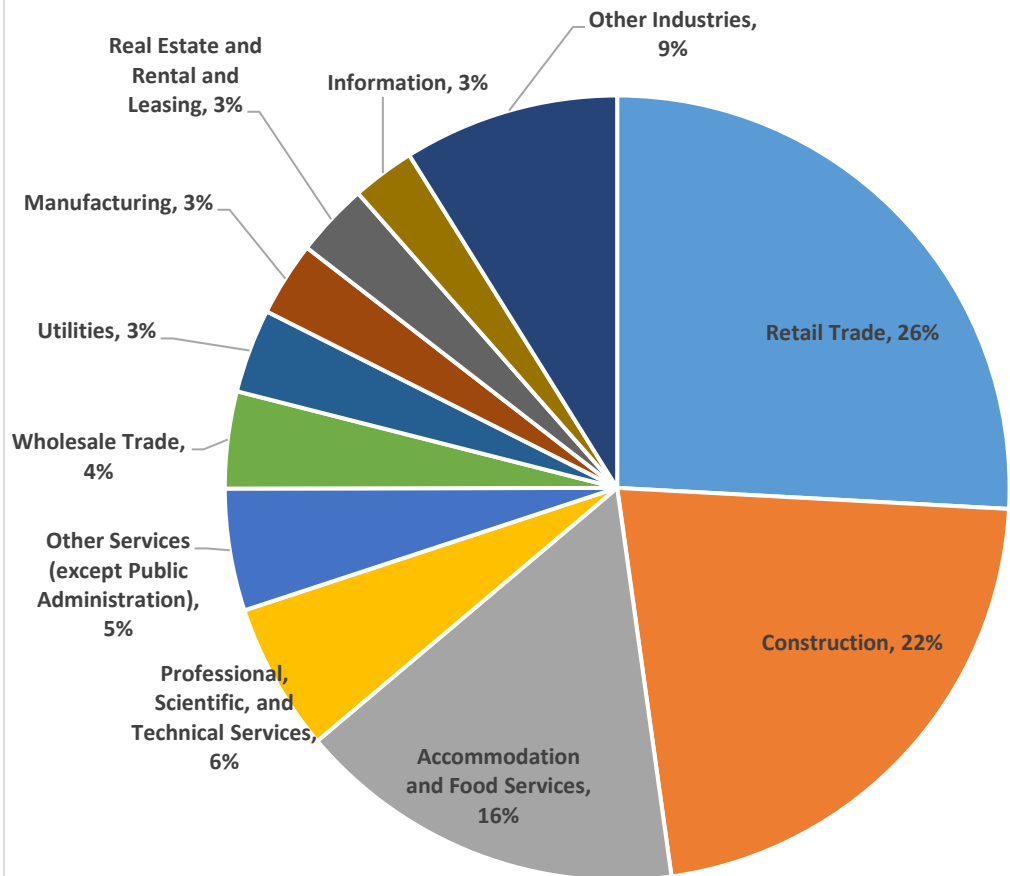

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

In the first quarter of FY25, 20 out of 33 counties reported positive year-over-year (YOY) economic growth compared to Q1 FY24, with a statewide 1.8% increase in matched taxable gross receipts (MTGR). Statewide growth was observed across most industry sectors, with the construction industry leading the way. Employment, wages, and the number of establishments have also increased YOY at the state level.

Taos County's MTGR increased by just over \$39.3M, or 14.6%, from Q4 FY24 to Q1 FY25, as seen in Chart 1. The amount reported during Q1 FY25 (\$309M) was \$23M larger than the eight-quarter average (\$286M). As shown in Chart 2, retail trade was the largest industry by percentage of MTGR, followed by the construction industry. These two industries were also the top two in the previous quarter, comprising 48%.

Chart 2. FY25 - Q1 Industry Size by Matched Taxable Gross Receipts

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500)

Matched Taxable Gross Receipts (MTGR) provide the most accurate tax data for assessing underlying economic activity. The data collection process involves matching tax payments with reported receipts for each taxpayer by industry.

All Industries	\$ 294,178,729	\$ 309,269,722	\$ 15,090,993	5%

Source: NM TRD - Monthly Local Government Distribution Reports (RP-500) and EDD Calculations

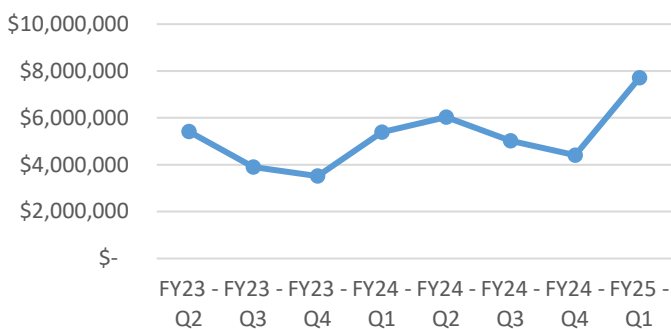

Table 1 shows that all but 7 industries reported a YOY increase in MTGR. The largest increase came from construction, growing by \$6.2M. The largest decline came from health care and social assistance, with a YOY decrease of \$1.5M. Public administration shows negative MTGR in Q1 FY25, possibly due to amended tax filings with TRD. Quarterly gross receipts tax (GRT) collections during Q1 FY25 (\$7.7M), as seen in Chart 4, grew by \$3.3M, or 74.8%, compared to Q4 FY24. The amount collected during Q1 FY25 exceeded the eight-quarter average of \$5.2M by \$2.5M, indicating an overall upward trend over the past eight quarters.

Chart 6. Establishment Year Over Year % Change

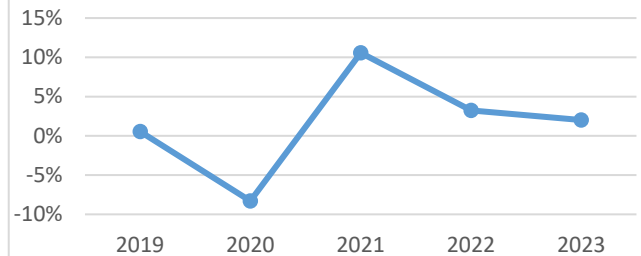

Source: NM DWS - Quarterly Census of Employment and Wages and EDD Calculations

An **establishment**, as defined by the Quarterly Census of Employment and Wages (QCEW) and referenced in Chart 6, is an economic unit, such as a farm, factory, or store, located at a single physical address and engaged in one type of economic activity.

Gross Domestic Product (GDP) measures the value of all goods and services produced within a specific area. Changes in GDP from one period to another are important indicators of how the economy is performing. Chart 7 illustrates the YOY percentage change in real GDP for calendar years. Table 2 below details the percentage contribution of each industry to the total GDP for a specific county and how each industry's GDP changed compared to the previous calendar year.
